MONTHLY REPORT FOR THE CARTOGRAPHY DIVISION

Month of July 1958

A. Summary of Cartographic Production and Accomplishments

1. During July the Cartography Division accepted requests for 84 maps and charts, 74 for CIA and 10 for the Department of State. Of the Agency requests 36 were by ORR, 3 by OSI, 4 as CIA contributions to MIS, 7 by ONE, 21 by OCI, and 3 by ID/P.
2. During the month the Division completed 21 maps and charts, 116 for the Agency and 5 for the Department of State.
3. The MIS Map Coordinator received 20 map requests during the month; 13 maps for final printing and 7 for color proofing. A total of 37 jobs were sent to reproduction during the month, 19 final maps and 18 for color proofs. Receipts from reproduction totaled 64 maps. Of this number 62 were final maps and 2 color proofs. One map remains in the Coordinator's Office at the end of the month. In addition to the above, 9 reruns of MIS maps were processed for D/GL use.
4. The total number of maps and charts in the Division at the end of July was 447, distributed among the Branches as follows:

USSR and Satellites	89
Far East and Western Hemisphere	98
Europe-Africa	51
Special Support	28
Development & Construction (Exclusive of Drafting Sec.)	181
Total	447

Production in the Division held steady during the month although there was a decrease of 13 jobs produced over the previous month. Also, the number of requests during the month decreased from 145 of the previous month to 84. This represents the usual seasonal decrease resulting from summer vacations in requesting components.

B. Administrative Problems and Other Activities

1. The problem of staffing the special city plans map project received considerable attention during the month. The compilation phase

of the pilot map was completed and the project now awaits the solution of certain security problems. In the meantime preliminary work has been started on the second city plan.

2. Because of the reduction of capabilities in the Drafting Section due to recent resignations, this unit has been unable to keep current with their workload. In order to remedy this situation a regularly scheduled period of overtime has been established. This overtime will be worked in addition to that required by rush work to meet close deadlines.
